Eminence

Vogue

Prestige

The Flores design is reminiscent of the Art Deco era but this is 21st century design and benefits from the most up-to-date glass technology. Triple glazed for easy cleaning and high performance heat and sound insulation, Flores provides style and quality. Taking its inspiration from the Andaman design of the Half Glazed unit used in the Elegance door, Flores' distinct tulip design flows through all 10 glass sizes offered.

Techniques used in making these decorative glass units make it impossible to change the textured glass. Composite sidelights can only be made for an Esteem, Esteem Arch, Esteem Eyebrow or Classical Half Glaze door.
